Transforming workplaces

Streamlining your operations

We empower workspace owners and tenants with innovative solutions designed to enhance their daily work experience. Our comprehensive range of products and features offers numerous benefits.

Effortlessly streamline workspace operations across different departments with our all-in-one solution. From efficient rental property management, and service ticket handling, to meeting room bookings and community building, saving you valuable time.

Welcome to the future of work, where efficiency meets engagement!

All-in-one solution

Unlock your workspace's full potential

Integrate all your building needs into one solution, unlocking your workspace's full potential with our platform while streamlining operations.

Now, everything is on one platform, eliminating the need for multiple logins and simplifying your workspace management.

Easily manage your business spaces and resources, including rapid meeting room bookings, and engage members with your custom white-labelled app.

Our products

We offer a wide range of solutions that enhance your workspace, engage your community, boost back-office efficiency, and provide a custom white-label app.

Community

Boost teamwork and tenant satisfaction with our communitybuilding tools. Facilitate collaboration, enjoy real-time updates, and cultivate a lively and interactive work environment.

Workplace

With functionalities such as desk and room booking, visitor registration, and live analytics, you have the tools to optimise space usage and create a smooth experience for your occupants, whether they are employees, tenants, or guests.

Backoffice

From hassle-free billing and invoicing to precise occupancy tracking, our comprehensive tools empower you to efficiently handle administrative tasks. This gives you more time to connect with members and add value beyond the computer.

Your branded app in the store

Immersive member experience with flexible branding options

We provide a customisable, white-labelled app that integrates with your brand's identity. With the flexible branding options, you can extend your style into one app to align perfectly with your company's.

Bisner covers all your app maintenance needs while making it easy for you to set up new functionalities. Thanks to our user-friendly navigation management, you can enable these features within the app, without the need for any technical expertise.

Get your brand featured on the Apple App Store and Google Play Store within just 4 weeks, an achievement that's simply impossible when choosing to build an app from scratch.

Leave behind worries about new phone and operating system releases—we ensure your app stays consistently updated to align with the latest advancements.

Collaboration beyond boundaries

Transforming the Tech Incubator Experience

With over 600+ members, YES!Delft, a tech incubator in Delft, the Netherlands, has implemented our community platform to transform its innovation hub.

The platform serves as the connective thread that binds startups, mentors, and partners, cultivating a collaborative and networking-rich environment.

Through the use of custom fields and filters, our platform empowers members to effortlessly discover and connect with like-minded individuals, making it easy to schedule one-on-one sessions and participate in events.

The Bisner Platform adds significant value to the YES!Delft community, allowing members to allocate more time and resources to what truly matters while avoiding the constraints of physical workspace limitations.

Build powerful and connected communities

Our community solution

The dynamic newsfeed encourages discussions, idea sharing, and relationship-building, highlighting the value of our digital community. Beyond the virtual world, we help you organise real-world events, from networking sessions to workshops, strengthening community bonds.

We showcase the benefits of a fully integrated system that connects people and other facilities. Additionally, our platform can link these events within the application to your website, making it easier than ever to promote them and reach a wider audience.

We also foster specialised groups, uniting like-minded members for hobbies, professional networks, or collaborative projects. You're not just building a community; you're cultivating a thriving ecosystem of shared experiences and opportunities.

Connect your tenants and empower your ecosystem

Create engaging events

Create unforgettable and engaging events within your community. Easily plan, promote, and manage events that bring your community members together.

Matrix Innovation Center - Amsterdam, The Netherlands

A digital transformation

The ultimate smart building

The Matrix Innovation Center in Amsterdam, The Netherlands, has implemented our all-in-one solution, resulting in a digital transformation of their newest building. They have transitioned into a fully digital environment allowing them to simplify day-to-day tasks, optimise resource usage, and save valuable time.

The app is fully branded in Matrix style and functions as a digital key for tenants to get access to their office and a remote control to manage their office environment with lighting and temperature. The digital hub offers tenants a wide range of options, from connecting with other members to reserving meeting rooms and other building facilities.

With automated invoicing our system ensures precise and punctual billing, benefiting both the centre and its tenants. Our data analytics provide invaluable insights for data-driven decision-making, enabling Matrix Innovation Center to get resource occupancy reports, track indexation, and other changes over time for continuous improvements and enhanced tenant experience.

Elevate your tenant experience

Our workplace solution

Step into the future of workplace management, where desk booking, room reservations, and service requests come together for a better tenant experience.

Our workplace solution offers you the agility to reserve workspaces or meeting rooms with ease, ensuring that your workspace always matches your needs, all from just out of the palm of your hand.

Ensure a seamless visitor experience from the moment of arrival to departure. Enable hosts to reserve guest parking spots in advance and provide visitors with hassle-free check-in upon arrival notifying hosts, creating a smooth and enjoyable journey for all.

But that's not all. With powerful data insights, you can enhance your spaces and make data-driven decisions to maximise efficiency and comfort for everyone. Our system also optimises service requests, guaranteeing that any maintenance or support needs are addressed promptly, making it easy for you to have an overview and improve your services.

Workspace Efficiency

Increase tenant satisfaction and operational excellence

Abacus is a listed company on the Australian Stock Exchange and recently launched Abacus Flex, which has 4 locations in Australia.

With Bisner Backoffice, all operational processes are streamlined, including invoicing, contract management, and CRM, eliminating errors and saving valuable time. Customisable templates have simplified the quoting and contract processes. Interactive floor plans provide real-time workspace insights, giving a significant boost to sales efforts.

The combination of Bisner Community and Workplace features, along with the white-labelled app, increases tenant satisfaction.

Backoffice

Property management designed for growth

Streamline your business operations with a smart solution that enhances property management, CRM, contract management, and invoicing.

Integrates with the tools you already use

Enhance your Bisner experience and build the ultimate smart workplace with a variety of add-ons and integrations.

We integrate with industry-leading tools such as Microsoft 365, QuickBooks, Google Workspace, Brivo, Salto and more. This adaptability allows us to tailor our platform to your specific needs and effortlessly incorporate the tools you already use.

Bisners integrations will bring together the tools you use every day, into one central place.

Implementation & support

We are here to guide you every step of the way

We facilitate a smooth shift from your current setup to Bisner, minimising the impact. We guide you through the entire implementation process, starting with understanding your needs, configuring the platform, and providing comprehensive training.

Our goal is to guarantee a seamless adjustment, typically taking around 1.5 months, depending on the project scope and third-party integrations. We prioritise ongoing support and conduct regular evaluations to assist you throughout the process.

After implementation, you'll have a dedicated account manager or customer success manager to help you maximise functionality, efficiency, and plan for future expansions. We're here to empower your workspace.
